Nothing gets closer to an OKI Original Consumable...

than an OKI Original Consumable.

From the design stage to our stringent manufacturing operations and aftercare, OKI takes special care to ensure that your Original Consumables work in perfect harmony with your printer hardware.

It's our way of empowering you to print what you want, when you want. With ease. With peace of mind. With vibrant colour and pin-sharp monotoners.

OKI's desktop and workgroup printers and MFPs take maximum advantage of our single-pass LED technology. Your Original Consumables sit neatly together to deliver fast throughput while taking up less space in your office. Naturally, if you need further proof about the legendary performance and reliability of our hardware, we invite you to take up the option of OKI's free, three year warranty. Just ask your authorised reseller for details.

OKI. All together, a better way to build your business.

Bringing added value to the way our customers work

*Don't take risks with non-genuine supplies.
Always use OKI Original Consumables.*

It's well documented, through customer feedback and independent laboratory tests, that OKI Original Consumables deliver better value for money than non-genuine supplies.

But is it just benchmark levels of performance, reliability and quality that our customers are demanding? No. They expect more. And that's where OKI has the advantage.

More choice. More control. More flexibility

With more than 60 printing devices to choose from, there's a printing solution for the most varied and demanding environments. All supported by OKI Original Consumables.

There's more creative freedom and print control through OKI's printer utilities – each of which depends on the integrity of our Original Consumables.

And more flexibility to print what you want when you want with OKI Original Consumables specialized print media.

Real value

Of course, the real value of using our Original Consumables isn't just about the quality of the documents you print. It's the value for money and peace of mind that accompany every OKI Original Consumable as we strive to meet and exceed the expectations of our customers.

Go three for free!

OKI's free, three-year warranty remains a firm favourite with customers purchasing new OKI printer hardware. And it's clear to see why.

- Extend the warranty of your printer to three years – for absolutely free
- Apply on-line, by post or by phone within 30 days of purchase
- All printer parts and labour are covered – absolutely free

Even better, there are no catches – so long as you continue to use OKI's Original Consumables during the three years of your extended printer warranty. But then, knowing the risks associated with non-genuine supplies, why settle for second best?

The brand of choice for 2012

The 2012 EMEA Consumables Catalogue from OKI contains all the essential information you will need to help identify and order the appropriate Original replacement consumables for our ever-increasing portfolio of colour and mono printers, fax machines and MFPs.

Through a combination of our own innovations and focusing on the needs of our customers, we are creating an even greater choice of printing and communications solutions through dynamic applications of High Definition Colour.

Check it out – and check inside too

Counterfeit product is big business for counterfeiters. It's also bad news for anyone who happens to receive one or use one.

Apart from the poor print quality and inevitable damage to printer components associated with these non-genuine print supplies, it is a criminal offence to supply or be in possession of counterfeit imaging supplies.

Make sure your new Original Consumables are genuine Original Consumables by checking that the special foil seal has not been tampered with.

For more information about counterfeit imaging supplies, visit www.icce.net, the web site of the Imaging Consumables Coalition of Europe, Middle East and Africa of which OKI is a founding member.

How to get the best from your 2012 EMEA Consumables Catalogue

To help you quickly identify information about each OKI Original Consumable, the order codes, yields and other technical specifications are arranged under product sections. These product groups are described in more detail on this page.

Colour

OKI High Definition Colour represents the convergence of our unique collection of market-defining printer hardware and software technologies.

These include:

- Single Pass Flat Paper Path
- High Definition LED Printheads
- Microfine High Definition Toner
- Intelligent Printer Control System

Together, these core technologies deliver superior energy-saving in house colour printing. Simply. Intelligently. Perfectly.

Mono

Speed, versatility, flexibility and reliability: the hallmarks of OKIs mono printers. The design and manufacture of our consumables for all these products reflects those qualities, so that using Original Consumables maximizes the productivity, efficiency and durability of the hardware.

MFPs

The range of multi-tasking, multifunction products from OKI incorporates colour, mono and fax-oriented devices that bring a host of time-saving and space-saving advantages to the modern office environment.

Dot Matrix

OKIs dot matrix printers continue to win respect for their reputation and special capability to perform in demanding conditions and harsh environments.

Fax

For personal faxing and copying on the desktop or high-speed communications via globally networked devices, OKI Original Consumables deliver uncompromising quality for a wide range of applications.

Media

Our media consumables comprise a range of media and tools to enhance print productivity and capability in-house.

Print CD labels, templates for customised stationery and artwork, banners, enlarged spreadsheets and point-of-sale materials without having to leave your desk or your office.

Dot Matrix

- Minimum wear due to high quality ribbon material
- Metered inkflow for consistent high quality output
- High quality oil to reduce wear of print head
- Precision-tooled ribbon shield to minimize paper jams
- Manufactured to precise tolerances to eliminate wear on ribbon drive mechanism

Here's an original way to save money on printing.

Always use OKI Original Consumables.

OKI's Original Consumables are designed and manufactured to work seamlessly and effortlessly with your OKI printer hardware.

Whereas non-genuine supplies can cause problems. From paper jams to poor quality prints. From premature "toner out" messages to damaging other printer components.

That's why we always recommend you choose OKI Original Consumables. Of course, if you risk using non-genuine supplies, you may get more, or less, than you bargained for – and your free, three year OKI printer warranty would be invalidated.

Get more value out of your printer with OKI Original Consumables.

All together, a better way to print.

WWW.OKIPRINTINGSOLUTIONS.COM

Business Printing Specialists

OKI is a global business-to-business brand dedicated to creating cost effective, professional in-house printing solutions which are designed to increase the efficiency of today's and tomorrow's businesses and their workflows. As pioneers in innovative print technologies from digital LED to High Definition Colour, we have a portfolio of award winning products and solutions enabling businesses to achieve both image focused, vibrant, quality print communications and budget flexibility.

OKI presents a full range of A3 and A4 colour and mono printers and MFPs, for workgroups and businesses of all sizes with superior media-handling capabilities. In addition our fax, POS and dot matrix printers complete our range of print solutions. These best in class products are designed to be easy to use making the job of in-house print easier.

Considering the Environment

OKI is committed to its role as a responsible partner for all its stakeholders:

Shareholders, business partners, end-users, local communities and employees.

As part of the OKI Group's Charter of Corporate Conduct, OKI continually reviews its efforts to provide environmentally sound solutions to its customers:

- OKI products are designed and manufactured with reducing the impact on the environment in mind.
- Increasing the amount of our hardware products and consumables that are recycled is one of our strategic objectives.
- We feel responsible for conducting our business in an environmentally sound manner, contributing to conservation and activities within our local communities.

OKI's Green Leaf symbol, found on all products and packaging, represents our total commitment to collection, recycling and environmental processes.

Simply Unique – 3 Year Warranty

Our devices are manufactured to the highest standards of quality and technology, which has been confirmed by independent tests.

We are so convinced of the high quality of our products that we are offering you an extension of the standard warranty period to 3 years – for free! Simply register your product within 30 days of purchase to be eligible for our unique all inclusive offer. Fully covered by OKI!

For further information please visit your local website.

20 years of LED Technology

OKI pioneered the development of digital LED technology in printers over 20 years ago. This innovation delivers High Definition printing – for more accurate, striking printed documents. Thanks to this digital LED technology, our printers are compact, environmentally friendly and energy efficient, using significantly less raw materials in the manufacturing process and consuming less energy. LED print heads have no moving parts, making our LED printers robust and ultra reliable.

High Definition Colour

High Definition Colour is OKI's own unique collection of market-defining hardware and software technologies. Together, these

components deliver unsurpassed colour printing – simply, intelligently, perfectly.

We pioneered Single-pass Flat Paper Path technology to bring you fast affordable colour printing. In consumables, we created a special Microfine High Definition Toner to ensure your documents are printed in superior quality.

We championed digital LED printing technology: our High Definition LED printheads have no moving parts and deliver pin sharp images.

The combination of the range of media and software solutions we offer means you have much more control of what you want to print, when you want to print – without leaving the office.

ISO Sets the Standard

The range of Original Consumables carrying the ISO Standard continues to grow. ISO/IEC 19752 now incorporates the majority of our mono printers and fax machines. In addition, we continue to expand on this by introducing the ISO/IEC 19798 standards for our latest colour printers. These ISO Standards are the industry-recognised benchmark for measuring toner yields of consumables.
